Introduction

1. This unofficial compilation containing an index of disarmament discussions at the 40th regular session of the General Assembly is intended to facilitate research in the field of disarmament.

2. The compilation is composed of two parts. The first contains the index to the debates in Plenary and the second covers the consideration of the same subjects in the First Committee. Each part consists of an index in alphabetical order of countries by subject and an index in chronological order, also by subject, of disarmament matters contained in statements made.

3. The list of subject headings has been prepared to reflect as comprehensively as possible those issues most frequently taken up at various disarmament forums and has no official character. The list has been updated to take into account recent developments relating to United Nations activities in the field of disarmament, including those covered in the deliberations at the second special session of the General Assembly devoted to disarmament in June/July 1982. Many of the subject headings have accordingly been expanded to include additional sub-items.

4. Readers should note that the term "(RES)" beside a country name indicates that a draft resolution was introduced by that country at the meeting indicated.

5. As passages from statements are frequently indexed under two or more headings, readers are advised to cross-check related subject headings.
